Projects

Project Title name.com/projectdemo

- The more work experience you have, the less relevant outside-work projects tend to become
- If you have something that really stands out, consider listing it here

Project Title github.com/name/project

- Only list real projects, not mandatory school projects or trivial tutorial projects found online
- Something that someone uses to solve a problem. Something that has users (can be just you, as long as you use it often) and is actively maintained and not just rotting in a GitHub repo, never to see a PR for the rest of its life
